

First Aid CPR AED

Classroom

According to the Occupational Safety and Health Administration (OSHA), approximately 4 million injuries and illnesses occur annually in the workplace, and nearly 80 percent of sudden cardiac arrests occur outside the hospital.

Heartsaver First Aid CPR AED is a classroom, video-based, instructor-led course that teaches students critical skills needed to respond to and manage a first aid, choking or sudden cardiac arrest emergency in the first few minutes until emergency medical services (EMS) arrives. In this course, students learn skills such as how to treat bleeding, sprains, broken bones, shock and other first aid emergencies. This course also teaches adult CPR and AED use.

Upon successful completion of the course, including a first aid, CPR and AED skills test, students receive a Heartsaver First Aid CPR AED course completion card, valid for 2 years.

Course Covers

- Key changes reflecting the new science from the 2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care
- First aid basics
- Medical emergencies
- Injury emergencies
- Environmental emergencies
- Adult CPR and AED use
- Optional modules in child CPR and AED use and infant CPR
- Optional written test

First aid, CPR and AED training is an important part of an effective safety program. Through our Heartsaver First Aid CPR AED Course, your employees will have the confidence and skills to respond to a variety of emergencies.

Heartsaver First Aid CPR AED Course Materials

- Heartsaver First Aid CPR AED Instructor Manual with Lesson Maps and Instructor CD (90-1029)
